Career Summary

Brandon Selissen joined Pfefferle Companies in 2015 as a maintenance technician. In 2016, he transitioned into the position of project manager overseeing various types of construction and maintenance projects for Pfefferle customers. Mr. Selissen's experience in all aspects of the construction process, paired with his knowledge of facilities maintenance and management, provides customers with comprehensive service unmatched by outside contractors. His duties include preliminary design, project scope development, budget creation, bid solicitation, project execution, jobsite supervision, etc.

Prior to joining Pfefferle Companies, Mr. Selissen spent 18 years in the commercial building construction industry. He started as a general laborer then to lead carpenter, foreman, project manager, estimator, and draftsman.

Education

- Associate's Degree from Northeast Wisconsin Technical College
- Various continuing education courses including Customer Service and Lean.
